**Inhalation:** Remove to fresh air and seek medical attention. In case of unconsciousness place patient stably inside position for transportation.

**Skin Contact:** Flush contaminated skin with plenty of soap and water for 15 to 20 minutes, remove contaminated shoes and clothing. Consult physician if symptoms develop.

**Eye Contact:** Flush with plenty of water for at least 20 minutes. Check for and remove any contact lenses. Call a doctor immediately.

**Most important symptoms/effects, acute and delayed:** Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash.

**Indication of immediate medical attention and special treatment needed:** Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

#### Section 5. Fire Fighting Measures

**Suitable extinguishing media:** Water fog. Foam. Dry chemical powder. Carbon dioxide (CO<sub>2</sub>).

**Unsuitable extinguishing media:** Do not use water jet as an extinguisher, as this will spread the fire.

**Special hazards arising from the substance or mixture:** During fire, gases hazardous to health may be formed.

**Hazardous Decomposition Materials (Under Fire Conditions):** No data available.

**Special Protective Equipment and Precautions for Fire Fighters:** Self-contained breathing apparatus and full protective clothing must be worn in case of fire. Use standard firefighting procedures and consider the hazards of other involved materials.

#### Section 6. Accidental Release Measures

**Personal Precautions, Protective Equipment and Emergency Procedures:** Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist/vapors. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

**Environmental precautions:** Do not allow to enter sewers/ surface or ground water.

**Methods and materials for containment and cleaning up:** Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place

into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination

**Section 7. Handling and Storage**

**Precautions for safe handling:** Avoid breathing mist/vapors. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

**Conditions for safe storage including any incompatibilities:** Keep container tightly closed in a cool, well ventilated place. Store in a dry place. Keep away from heat sources and direct sunlight. Store away from oxidizing agents.

**Section 8. Exposure Controls / Personal Protection**

**Exposure Guidelines:**

Component	OSHA	ACGIH	NIOSH
Calcium carbonate	PEL - 5 mg/m <sup>3</sup> (respirable fraction)	-	10 mg/m <sup>3</sup> (Total dust) 5 mg/m <sup>3</sup> (respirable fraction)
Dibenzoyl Peroxide	PEL - 5 mg/m <sup>3</sup>	TWA - 5 mg/m <sup>3</sup>	TWA - 5 mg/m <sup>3</sup>

**Appropriate engineering controls:** Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station and safety shower.

**Personal protective equipment:**

**Hygiene measures:** Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

**Respiratory Protection:** Use approved respiratory protection equipment when airborne exposure is excessive. Consult the respirator manufacturer to determine the appropriate type of equipment for a given application. Observe respirator use limitations specified by the manufacturer.

**Eye / Face Protection:** Wear tightly sealed goggles. Safety glasses with side shields. Use full face shield over protective eye wear when there is a risk of a splash.

**Skin Protection:** Wear chemical resistant impervious gloves and suitable protective clothing.

**Environmental exposure controls:** Do not allow material to contaminate ground water system.
