LIBERTY 6410 BY-PASS METER BAR BRACKET

Introducing the new Liberty 6410 By-Pass Meter Bar Bracket that is specifically designed to mount the AY McDonald 6410 By-Pass Meter Bar to most foundations. This bracket allows for quick and easy installation of the 6410 By-Pass Meter Bar by using a snug fit of the bar to the bracket which adds stability to the assembly and provides for a rigid installation. The bar is secured in place with a flanged head bolt that is threaded into a fixed position nut for quick and secure fastening. Minimal parts make the assembly quick and easy.

FEATURES:

- Specifically designed to fit AY McDonald 6410 By-Pass Meter Bar
- Rugged steel construction to support meter and bar assembly
- Quickly mounts directly to foundation or drive post
- One-bolt assembly to the fixed position nut makes for easy assembly of the meter bar to the bracket
- Polyester powder coated for excellent corrosion protection
- Slotted mounting hole for easy field adjustments and alignment
- Liberty Sales Part No: LBBPMBB
